# Len Dolby Joins Marston as Vice President and Executive Mining Consultant

St. Louis, MO – Marston is pleased to announce the addition of Len Dolby, P.E. (Virginia) as Vice President and Executive Mining Consultant. Len brings over 25 years of coal mining know how and expertise in underground and surface mining plus coal preparation management skills to his position at Marston’s corporate St. Louis office. His most recent experience provided a special focus on coal transportation. Prior to joining Marston, Len held various positions of responsibility with Arch Coal and Millers Cove Energy.

Marston is a full service mining consulting organization comprised of Marston & Marston, Inc., Marston Environmental, Inc., Marston Canada, Ltd. and Marston International Pty. Ltd. Since 1977, Marston has provided its ever expanding range of mine management consultation, mining engineering, geological services and environmental services to clients around the world.
